

ORACLE CLOUD **LIVE IN 90 DAYS**, FULLY OPERATIONAL

FOR ORGANISATIONS THAT NEED ORACLE CLOUD LIVE IN 90 DAYS, NOT 12 MONTHS

FULLY OPERATIONAL FINANCE, HR, AND PROCUREMENT BACKBONE, NOT PHASED OR PARTIAL DELIVERY

THE PROBLEM

- ✗ Transformation programmes stall
- ✗ Too many disconnected workstreams
- ✗ No single view of value
- ✗ Technology delivered without clarity
- ✗ Integration and process gaps delay outcomes

WHAT WE DELIVER

Not implementation - Operational from day one

FINANCE: GL • AP • AR • Cash • Assets

HR: Core HR • Self-Service • Absence • Local Payroll

PROCUREMENT: Source-to-Pay delivered via Oracle Procurement or ISPnext, with platform selection aligned to operating model, user experience, and automation outcomes

FULLY INTEGRATED:

S2P → AP → GL

HR → Payroll → GL

HR aligned with Finance

WHAT MAKES IT DIFFERENT?

- ✓ Evidence-led design (not assumption-led)
- ✓ Built on real process + integration insight
- ✓ AI-ready by design (not added later)
- ✓ Extends into optimisation, AI and managed services
- ✓ Designed to support shared services model

WHAT MAKES IT COMPELLING?

- ✓ **SIMPLICITY:** No lock-in to bloated architecture
- ✓ **SPEED:** Pre-configured delivery models
- ✓ **COST EFFICIENCY:** Right-sized architecture reducing licence and delivery cost
- ✓ **FUTURE-READY:** Modular expansion across Finance, HR, and S2P

DESIGNED TO ACCELERATE ADOPTION OF ORACLE FUSION CLOUD APPLICATIONS AND DELIVER MEASURABLE BUSINESS VALUE FROM DAY ONE

HOW IT WORKS

WHY IT WORKS

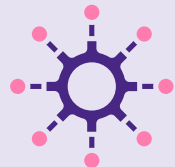

MOBILISE

Align scope, architecture, outcomes

CONFIGURE

Deploy pre-configured **SPEED** processes

INTEGRATE

Connect Finance, HR, Procurement flows

VALIDATE

End-to-end scenarios validated. Go-live readiness assured

GO LIVE

Operational back office, not partial delivery

- ✓ Foundation-first reduces risk
- ✓ Pre-configured **SPEED** accelerates delivery
- ✓ Embedded integration (not retrofitted)
- ✓ **Designed for scale beyond Day 90**
